We, at Fusion Relocations want to make sure all our moves are safe and in compliance with government regulations. We created this fact sheet to warn shippers of dangers that can arise from packing certain common household products for shipment, as well as to inform the shipper that federal law prohibits the packing of hazardous and restricted items in any shipment.

Many common household items, including aerosol hairspray and cleaning products, are very hazardous when packed. Heat quickly builds up inside the containers, which can trigger an explosion or fire that can not only cause serious damage to a shipment, but endanger the lives of passengers/ transporters as well. Our crews and agents are trained not to pack or load any articles that are considered hazardous or restricted. For everyone's safety, please make sure none of the items on our partial list below are packed in a shipment to be moved.

Please carefully review the list below and eliminate all dangerous items before packing. Be well informed that **WINES & LIQUORS** in any forms and kinds are **STRICTLY PROHIBITED**. Violators are subject to fines and/ or years in prison, our crew are authorized to remove these items if they are packed. If removed, these items are not claimable on insurance.

**IN ADDITION, MAKE SURE TO BE AWARE OF THE DESTINATION COUNTRY'S CUSTOMS GUIDELINES FOR PROHIBITED ITEMS (i.e. FOOD ITEMS, ADULT MATERIALS, ELECTRONICS, WEAPONS, PRESCRIPTION MEDICINES, ETC.) WHEN PACKING.**

Additionally, if your shipment includes "packed by owner" (PBO) boxes, all packages must be opened and inspected.

Please find attached the list of items which must not be packed in an air freight consignment under any circumstances. If these items are included, the shipment must be returned from the airport, unpacked, and repacked which will cause a delay in forwarding. Please note that "no goods should be packed by owner or third parties".
